

# PROMOTRON

## Referral System

Promo**Tron**  
industry innovations

PromoTron Solutions S.A., Czech Republic  
[support@promotron.com](mailto:support@promotron.com)

## 1. The Referral Program

Our main goal is to provide you with the best services we can. If you are satisfied with our services, we would really appreciate you telling your colleagues in the industry.

To reward you for your referrals we have designed our Referral Program.

## 2. Distributors of Promotional Products

If you are our existing Distributor, the reward will be a discount of your license fee with us, so more money will be left to you, for example for marketing of your webshop.

For every customer you refer to us who will activate the **TronShop license** (after trial), you will receive a **discount from YOUR license fee for the whole time the referred customer maintains his subscription with us**. The discount will be calculated as **15% of the referred customer's license fee**. You can refer an unlimited number of customers, so your license can be **even free-of-charge**.

In addition, every customer referred by you **will receive 10% discount for the first three months** of their TronShop license. We are always glad, when a new customer joins "our family", so this would be our little gift to make their onboarding and switching for our services cheaper and therefore easier.

Please contact us [here] for claiming your referral.

## 3. Suppliers of Promotional Products

Are you a **Supplier of Promotional Products**? Would you benefit from digitalizing your network of distributors? We would consider it an honor if you selected our PromoTron Platform as the tool for it.

Our platform is proprietary and therefore **fully customizable**; in addition, it is **completely "cloud-based"** and can be deployed in couple of clicks.

It goes without saying that **your own products would be available for all your distributors** – converting your distributors to e-commerce will increase also your sales.

Please contact us [here] for a special arrangement.

## 4. IT and Other Resellers

Are you an **IT integrator**, **Media Agency** or any other professional looking for a “ready-made” e-commerce product for your (potential) customers from among the Suppliers or Distributors of promotional products?

Please contact us [here] for a quote (one-off customer) or a special arrangement (more customers).
